

OVERVIEW

The Media Source 600 is an audio endpoint for a single Meridian Sooloos zone, making it simple to integrate the multi-award-winning Meridian Sooloos into any system providing the ultimate in audio performance.

As a Meridian Sooloos Zone, the Media Source 600 provides access to any of the facilities of the host system, including playback from the media library. Free iPad, iPhone, Touchscreen PC, Microsoft Surface, Windows and Mac apps are available to enable browsing and control. Basic configuration is completely automatic, with advanced features being configured via a web browser.

PRODUCT HIGHLIGHTS

This compact single-zone source provides access to your music library, and music streaming services to the zone in which it is used.

- Features Meridian's acclaimed audio enhancement technologies including an internal high-quality clock for lowest possible jitter and Apodising Upsampling, for superb audio quality.
- Meridian SpeakerLink for direct connection to a pair of Meridian's DSP Loudspeakers: some models can also power the unit.
- S/PDIF Optical digital audio output for connection to surround receivers or other digital devices.

USER FEATURES

- High-quality balanced and unbalanced analogue audio outputs for simple connection to a hi-fi or multi-zone distributed audio system.
- Managed and controlled from any Control attached to the Sooloos network, including wirelessly via the free Sooloos iPad, iPhone, Touchscreen PC and Microsoft Surface apps.
- Styled and finished to sit comfortably in to any living space, or can be instantly converted for discreet rack-mounting.
- Features a universal voltage internal power supply.

TECHNOLOGIES

MERIDIAN SOOLOOS

Meridian's award-winning Sooloos delivers pristine lossless audio quality with an extremely intuitive user interface. It automatically discovers and integrates with your network for instant installation, Sooloos is a modular, expandable system designed to suit your needs.

MERIDIAN APODISING FILTER

Media Source 600 delivers the best from your library, thanks to Meridian's proprietary "apodising" upsampling filter, which maximises digital audio quality and can even improve the sound of older digital recordings.

SPEAKERLINK

Traditional audio systems often require large, expensive cables to maintain their performance. Meridian's SpeakerLink uses an "Ethernet style" cable that delivers pristine digital sound and control down a single cable between Meridian components.

DYNAMIC HOST CONFIGURATION PROTOCOL

Employs DHCP for setup-free connection to the network and includes automatic discovery for integration with other Sooloos components.

CONSTRUCTION

Echoing the lines of the highly successful G Series, the enclosure of the Media Source 600 includes a smoked glass front panel and bead-blasted aluminium exterior with the Meridian brand marque inset in the top panel.

The enclosure includes integral rack-mounting capability: simply by removing the front feet, sliding out the blanking panel on each side and replacing them with the rack-mount "ears" provided, the unit may be rack-mounted almost immediately.

- Styled and finished to sit comfortably in any living space.
- Front panel features on/standby button and six front-panel diagnostic LEDs which indicate status.

SPECIFICATION

OUTPUTS	<ul style="list-style-type: none">• Meridian SpeakerLink connector (RJ45)• Analogue stereo unbalanced (phono)• Analogue stereo balanced (XLR3M)• Digital S/PDIF coax, odB fixed (phono)• Trigger out (3.5mm jack)
INPUTS	<ul style="list-style-type: none">• Ethernet Network Connection (RJ45)• USB maintenance port• IR in (3.5mm jack)
AUDIO PROCESSING	<ul style="list-style-type: none">• Ultra-stable clock for lowest possible jitter• "Apodising" upsampling filter for ultimate digital performance
DISPLAY	<ul style="list-style-type: none">• On/standby button illuminates blue in standby, white when on• Six front-panel diagnostic LEDs indicate status during startup and are normally off when running
CONTROLS	<ul style="list-style-type: none">• Via Meridian Sooloos• Free iPad, iPhone, Touchscreen PC and Microsoft Surface• Acts as a single zone• Configuration via web page
DIMENSIONS/WEIGHT	<ul style="list-style-type: none">• HEIGHT: 60mm [2.4in]• WIDTH: 440mm [17.3in]• DEPTH: 350mm [13.8in] plus connectors• WEIGHT: 4.5kg [10lbs]
POWER	<ul style="list-style-type: none">• Universal voltage internal power supply

SOOLOOS: ALL MUSIC. ALL THE TIME.

Meridian's award-winning Sooloos delivers pristine lossless audio quality with an extremely intuitive user interface.

It automatically discovers and integrates with your client's network for instant installation. Sooloos is a modular, expandable system designed to suit your needs.

MERIDIAN SOOLOOS AT A GLANCE

FOCUS

Allows you to move away from text based searching forever. Choose from genres, moods, decades, resolution quality and more to find exactly what you want to listen to.

SWIM

When your queued music comes to an end, Swim will keep the party going. Unique to Sooloos, this is the most sophisticated way to randomise your favourite music.

BROWSE

Effortlessly browse by artist, release date, TuneIn Radio stations or import date using the stunning free iPad or Touch PC interfaces.

EXPLORE

Sooloos offers myriad ways to navigate 30,000 album capacity. Browse by genre, tags, decade, mood, words or ideas. Explore makes it simple to find what you want to hear.

STREAM

Add millions of songs to your collection with major music subscription services, like Tidal, and simply add any music you like to your collection to listen to them time and time again.

TUNE IN

Internet Radio offers a vast catalogue of music, entertainment and information from around the world. Find stations and listen easily and reliably thanks to the integrated TuneIn™ directory.

STREAMING

TIDAL, Napster
& Rhapsody

CD LIBRARY

Easy to input & catalogue
over 30,000 CDs
